* The analysis will be based on the amount and location of the settling, the number of minor cracks and major cracks, and a comparison to other driveways within the association. The goal is to keep all driveways in the association at a level that maintains the general aesthetic appearance of the community. Obvious abuse by the owners will not be cause for the COA to repair or replace the driveway. Owner caused damage would require the owner to repair or replace the driveway.

Additional information: For any of the above items listed as owner's responsibility, Milestone Real Estate Services will be able to provide contacts for any of the repairs. The contractor would then work directly with the owner for the required repairs.
